

COMPLETE CONTROL LLC

CAPABILITY STATEMENT

<https://www.completecontrolflorida.com/>

COMPANY OVERVIEW

Complete Control is a veteran owned business with over 20 years experience. We have been certified, and/or worked with many manufacturers including Alerton, Distech, Johnson Controls, Siemens, Schneider, ABB, and Danfoss. We have integrated multiple third party systems via BACnet protocol, creating projects without limitations. With involvement in the public and private sector, Complete Control has the experience and knowledge to tackle any project, no matter the difficulty. Our experience in controls does not stop with installation. Complete Control has been responsible for maintaining multiple facilities via service calls, or service contract repairs on the building controls, BMS, EMS, lighting controls, and VFDs.

Our mission is to provide you with an optimal energy efficient property without sacrificing comfort. We want to reduce carbon footprint, one installation at a time. There are a couple of different ways we can accomplish our goals, our main one being servicing and maintaining your properties.
